

# Abused by a priest, minister, rabbi, or other authority figure?

## Not sure where to turn, who to ask, or what to do next?

### The Survivors Network of those Abused by Priests (SNAP) offers a monthly support group in Reading!

Our support group is free and confidential, and we welcome all survivors of religious, spiritual, or sexual abuse, regardless of religious background. Our groups are led by abuse survivors who volunteer to help other survivors navigate their healing journey and to answer many of the questions that survivors struggle with as they move forward.
